

55. International Winter Meeting on Nuclear Physics

Tuesday, 24 January 2017

Tuesday Morning (09:00 - 13:30)

time	[id] title	presenter
09:00	[50] Electric Dipole Moment Searches	Prof. FIERLINGER, Peter
09:45	[44] Status and perspectives of nuclear chiral EFT"	Prof. EPPELBAUM, Evgeny
10:30	[67] Coffee Break	
11:00	[40] recent results from ALICE on heavy flavor probes of the quark gluon plasma	Prof. STACHEL, Johanna
11:45	[41] Subthreshold charm and strangeness production at FAIR energies	Prof. BLEICHER, Marcus
12:15	[23] Blessings of a phantom: what remains from the 750 GeV diphoton resonance	Prof. NEUBERT, Matthias
