

## 56. International Winter Meeting on Nuclear Physics

### Tuesday 23 January 2018

#### Tuesday Afternoon (17:00-19:30)

time	[id] title	presenter
17:00	[42] PUMA: Radioactive nuclei and Antiprotons	Dr OBERTELLI, Alexandre
17:25	[82] Axion-like particles at the LHC and future colliders	Prof. NEUBERT, Matthias
17:45	[1] Recent results from the ATLAS heavy ion program	HAVENER, Laura
18:05	[20] The micro-RWELL technology: status and perspectives	Dr MORELLO, Gianfranco
18:25	[26] Probing resonance matter with HADES	Dr GUMBERIDZE, Malgorzata
18:45	[11] Importance of initial and final state effects for azimuthal correlations in p+Pb collisions	Mr GREIF, Moritz
19:05	[22] Photon Production in a Hadronic Transport Approach	SCHÄFER, Anna
