

Session Program

22–26 Jan 2018

56. International Winter Meeting on Nuclear Physics

Wednesday Morning

Bormio, Italy

Wednesday 24 January

09:00

Wednesday Morning

Session | Location: Bormio, Italy

09:00–09:45 **Studies of deconfined matter at the LHC with ALICE**

Speaker

Anton Andronic

09:45–10:30 **Physics with ultracold neutrons**

Speaker

Prof. Zimmer Oliver

10:30–11:00 **Coffee Break**

11:00–11:40 **Nuclear Physics with Strangeness**

Speaker

Prof. HIROKAZU TAMURA

11:40–12:10

Testing the conjecture of partial chiral symmetry restoration - meson-nucleus potentials and the search for meson-nucleus bound states

Speaker

Prof. Volker Metag

12:10–12:40 **The Pierre Auger Observatory**

Speaker

Dr Darko Veberic

12:40
