

Session Program

22–26 Jan 2018

56. International Winter Meeting on Nuclear Physics

Thursday Afternoon

Bormio, Italy

Thursday 25 January

17:00

Thursday Afternoon

Session | Location: Bormio, Italy

17:00–17:25 Flavour results at LHCb**Speaker**

Dr Patrizia de Simone

17:25–17:45 The FOOT experiment: status and first experimental results**Speaker**

Dr Matteo Morrocchi

17:45–18:05 "Searches of dark sector particles with positron annihilations"**Speaker**

Dr Paolo Valente

18:05–18:25**Comparison of hydrodynamical and transport theoretical calculation for p+A and A+A collisions.****Speaker**

Prof. Carsten Greiner

18:25–18:45 First Fully Exclusive Measurement of SRC Pairs at JINR**Speaker**

Efrain Segarra

18:45–19:05 Neutrino-Nucleus Interactions and Long-Baseline Experiments**Speaker**

Prof. Ulrich Mosel

19:05–19:25 Effective Field Theory Analysis of CRESST-II data**Speaker**

Vincent Schipperges

20:05
