

Discussion on exclusive heavy to heavy

- More details on lattice results (Weonjong Lee, Alejandro Vaquero)
- LCSR results (Nico Gubernari)
- How to interpret experimental data on form factors?
 - BCL vs. BGL for $B \rightarrow D^*/D\nu$
 - How to determine $R_1(w)$ and $R_2(w)$ for $B \rightarrow D^*\nu$?
 - Use of strong constraints
 - How to combine lattice QCD/LCSR results and data
- How to proceed for D^{**} ?
 - Just wait for more data or use theoretical guidance for interpretation?
- Shape of $\Lambda_b \rightarrow \Lambda_c^* \mu \nu$ from LHCb?
- Discussion – HQET NNLO corrections
