

^{15}C , an archetypical halo nucleus

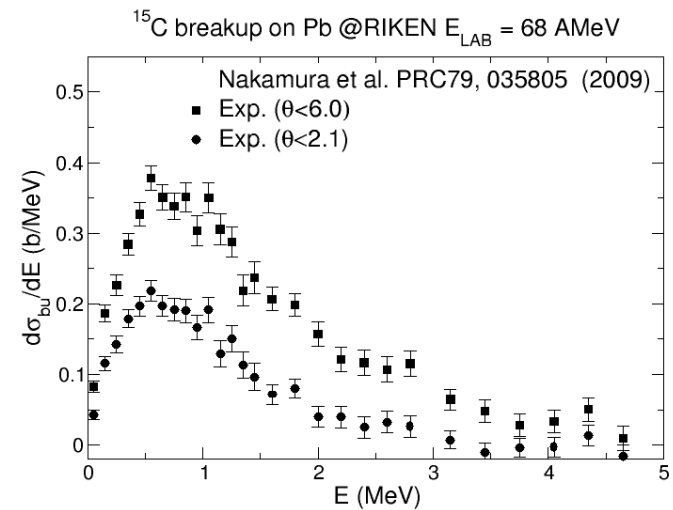

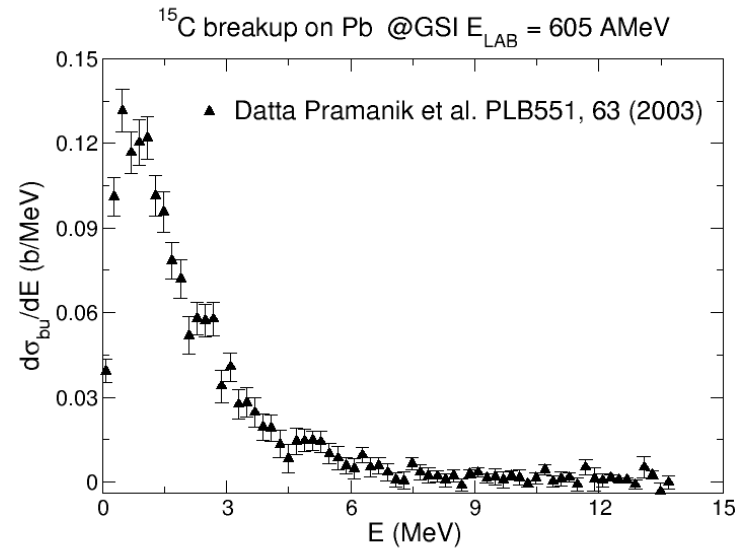

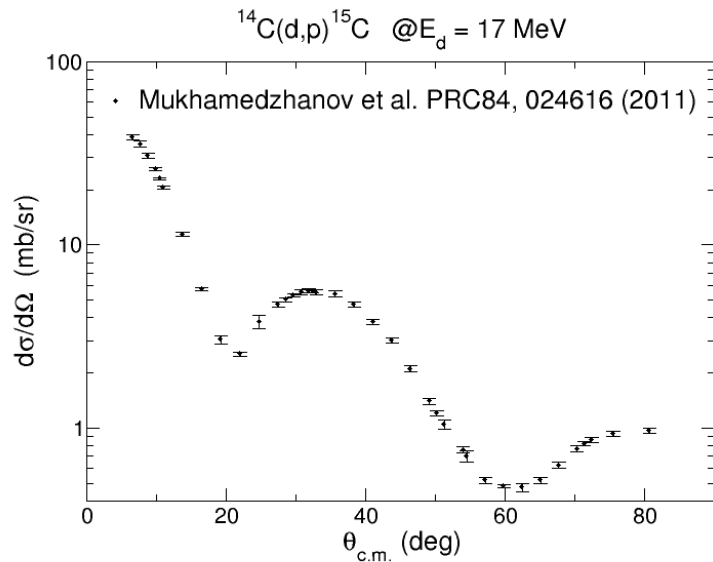

^{15}C is a one-neutron halo nucleus modeled as a compact ^{14}C core with one loosely bound neutron

A lot of data are available for ^{15}C

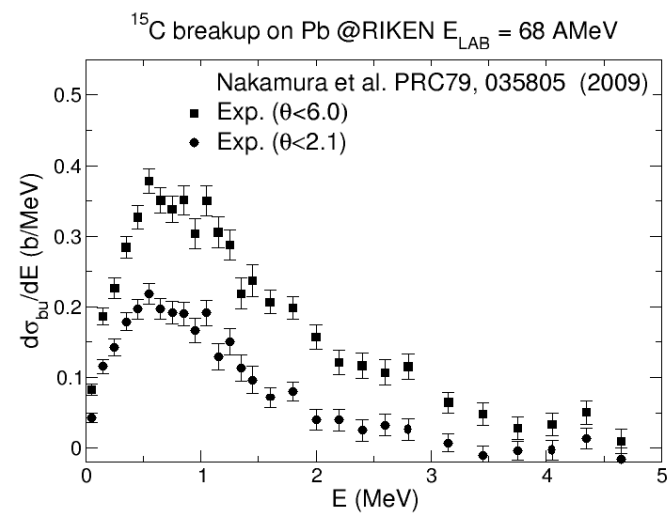

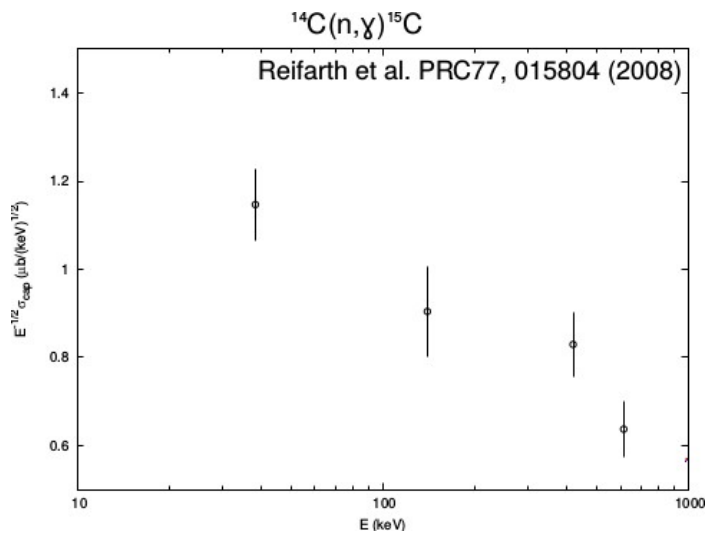

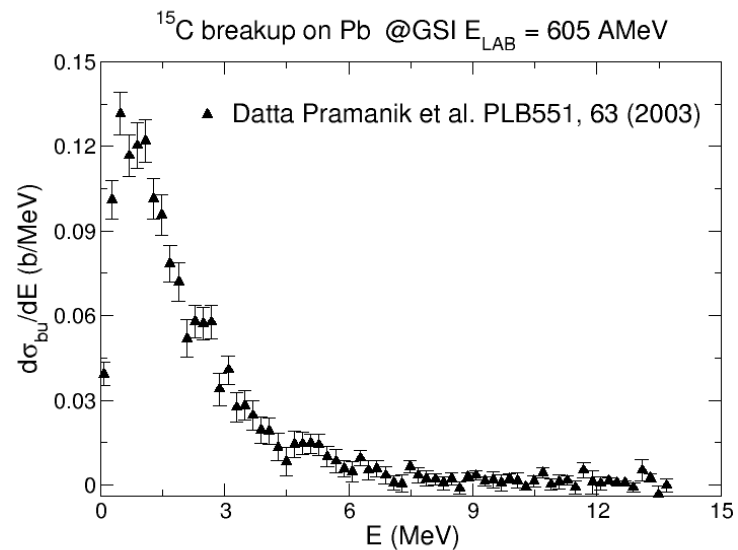

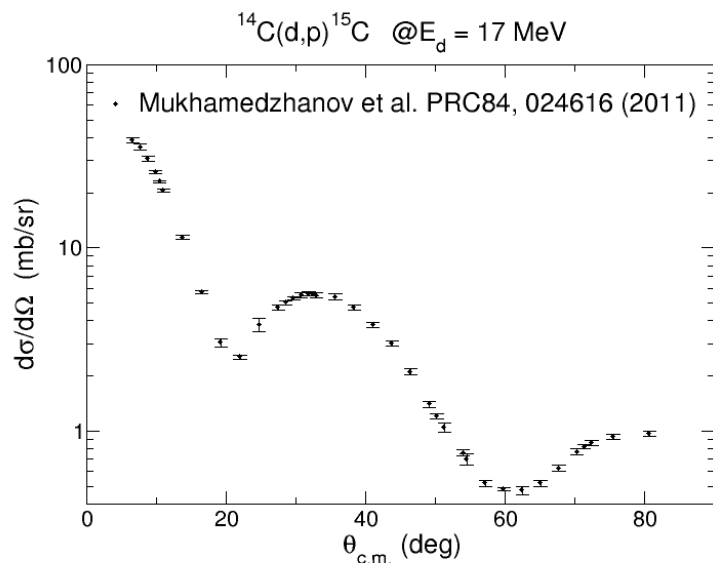

A lot of data are available for ^{15}C

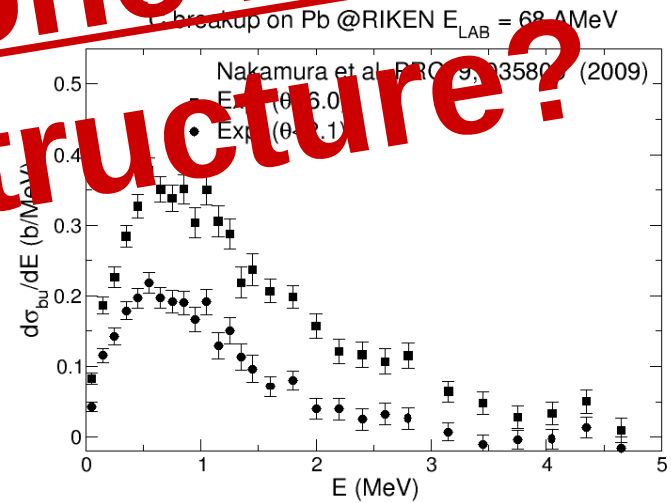

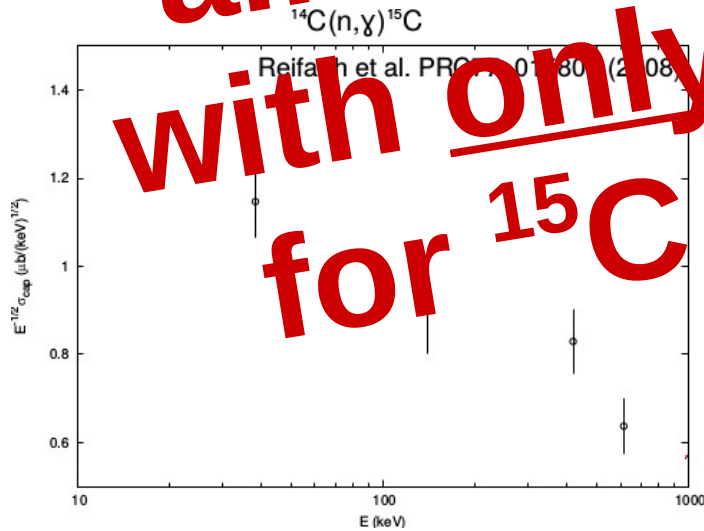

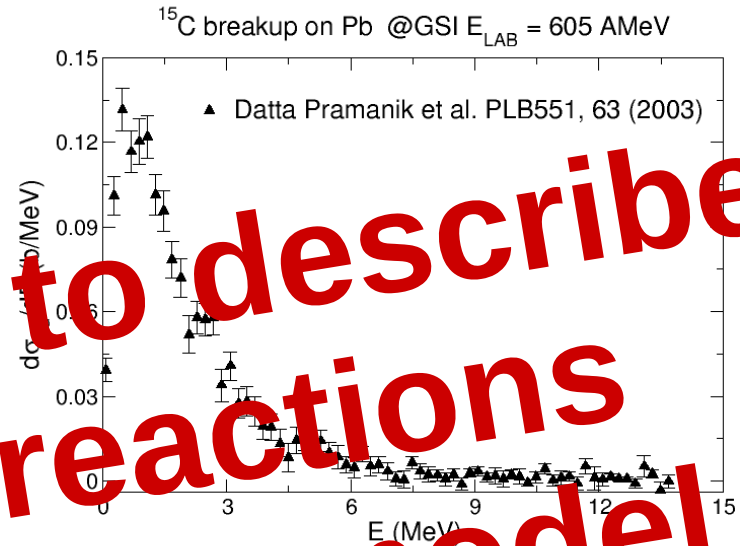

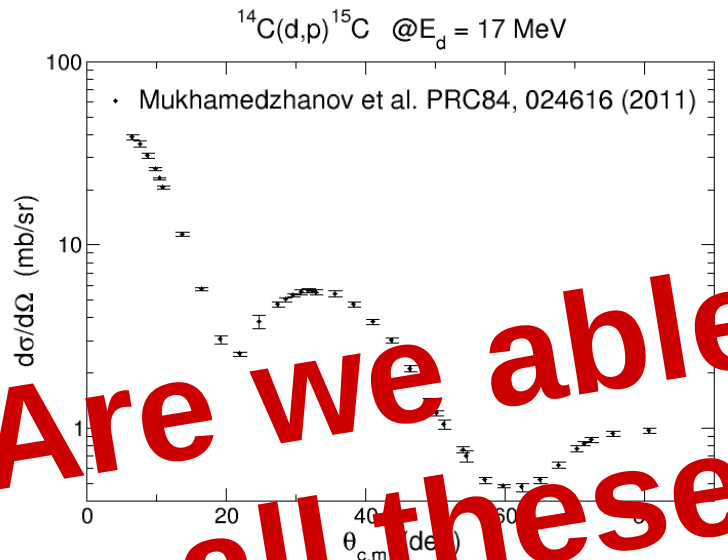

A lot of data are available for ^{15}C

A lot of data are available for ^{15}C

A lot of data are available for ^{15}C

Are we able to describe
all these reactions
with only one model
for ^{15}C structure?

57th International Winter Meeting
on Nuclear Physics
21-25 January 2019 Bormio, Italy

^{15}C STRUCTURE AND DYNAMICS: COUPLING HALO EFT TO REACTION MODELS FOR TRANSFER, BREAKUP AND RADIATIVE-CAPTURE
