

# 57. International Winter Meeting on Nuclear Physics

## Friday, January 25, 2019

### Friday Morning Session (9:00 AM - 12:30 PM)

-Conveners: Mariana Nanova

time	[id] title	presenter
9:00 AM	[70] Novel silicon pixel detectors	Dr MUSA, Luciano
9:45 AM	[51] What it takes to calculate the magnetic moment of the muon in the standard model	LEUPOLD, Stefan
10:50 AM	[46] Importance of the Tensor Interaction in Structure of Nuclei	Prof. TANIHATA, Isao
11:25 AM	[57] Searching for a matter creating process in nuclear decays	Prof. SCHOENERT, Stefan
12:00 PM	[69] Indirect techniques in nuclear astrophysics	Prof. TUMINO, Aurora
