

Session Program

20–24 Jan 2020

58. International Winter Meeting on Nuclear Physics

Monday Morning

Bormio, Italy

Monday 20 January

09:00

Monday Morning

Session | Location: Bormio, Italy

09:00–09:10 Introduction**Speakers**

Prof. Concettina Sfienti, Prof. Laura Fabbietti

09:10–09:55 Inferences About the Equation of State from Gravitational Waves and NICER**Speaker**

Prof. James Lattimer

09:55–10:40 First results from Belle II**Speaker**

Prof. Torben Ferber

10:40–11:10 Coffee Break**11:10–11:50 Dilepton production in heavy-ion collisions****Speaker**

Prof. Harald Appelshäuser

11:50–12:30 A glimpse of the H dibaryon from a lattice QCD perspective**Speaker**

Hartmut Wittig

12:30
