

Session Program

20–24 Jan 2020

58. International Winter Meeting on Nuclear Physics

Friday afternoon

Bormio, Italy

Friday 24 January

17:00

Friday afternoon

Session | Location: Bormio, Italy

17:00–17:20 **Neutrino self-interaction and MSW effects on the supernova neutrino-process**

Speaker
Heamin Ko

17:20–17:40 **The electron screening effect with a magnetic field on the massive star**

Speaker
EunSeok Hwang

17:40–18:00 **Lepton Flavour Violation (LFV) searches at Belle II: tau- \rightarrow 3mu analysis expectations**

Speaker
Mr Alberto Martini

18:00–18:20 **Production of leptons from charm and beauty quarks with ALICE at the LHC**

Speaker
Sudhir Pandurang Rode

19:00
