

## Special Issue

# Physics Opportunities with the Gamma Factory

**Submission deadline: April 1st, 2021**

### Scope:

- Accelerator developments
- Atomic and fundamental physics
- Search for Dark Matter
- Nuclear and particle physics
- Rare isotopes and isomers
- Nuclear-physics applications
- Studies with primary, secondary and tertiary beams
- Gamma Factory in a global landscape

### Guest Editors

Dmitry Budker  
Mikhail Gorshteyn  
Witold Krasny  
Adriana Palffy  
Andrey Surzhykov

### Article categories:

Research articles (typically 6-8 pages): new and previously unpublished work of general interest;

Reviews (typically 15-25 pages): a snapshot of most recent progress and particularly relevant aspects with possibly open or controversially discussed questions.

Online submission at
