

59. International Winter Meeting on Nuclear Physics

Thursday, 26 January 2023

Thursday Afternoon (16:40 - 19:00)

time	[id] title	presenter
17:00	[89] The surface Resistive Plate Counter: an RPC based on MPGD technology	BENCIVENNI, Giovanni
17:20	[61] Pixelised Resistive Micromegas for High-Rate Environment	IODICE, Mauro
17:40	[51] The μ -Resistive WELL in HEP and beyond	MORELLO, Gianfranco
18:00	[84] Prospects for searches for a stable double strange hexaquark at Belle II	Dr SCAVINO, Bianca
18:20	[45] Measurement of ^{16}O fragmentation cross sections on C target with the FOOT apparatus	TOPPI, Marco
