

59. International Winter Meeting on Nuclear Physics

Tuesday, 24 January 2023

Tuesday Afternoon (17:00 - 19:20)

time	[id] title	presenter
17:00	[26] Isospin effects on the nuclear equation of state	CHBIHI, Abdou
17:30	[54] The PUMA experiment: motivation, objectives and current status the apparatus	KLINK, Clara
17:50	[62] Perturbative EFT-inspired model of core excitations in one neutron halo nuclei	KUBUSHISHI, Live-Palm
18:10	[4] Neutral meson production at AgAg@1.58 A GeV	PROZOROV, Alexandr
18:30	[22] Coalescence in MC generators and implications for cosmic ray studies	Dr PINTO, Chiara
