

## Session Program

Jan 23 - 27, 2023

## 59. International Winter Meeting on Nuclear Physics

*Tuesday Afternoon*

Bormio, Italy

# Tue, January 24

5:00 PM

## Tuesday Afternoon

Session | Location: Bormio, Italy

**17:00 – 17:30** Isospin effects on the nuclear equation of state**Speaker**

Abdou Chbihi

**17:30 – 17:50** The PUMA experiment: motivation, objectives and current status the apparatus**Speaker**

Clara Klink

**17:50 – 18:10** Perturbative EFT-inspired model of core excitations in one neutron halo nuclei**Speaker**

Live-Palm Kubushishi

**18:10 – 18:30** Neutral meson production at AgAg@1.58 A GeV**Speaker**

Alexandr Prozorov

**18:30 – 18:50** Coalescence in MC generators and implications for cosmic ray studies**Speaker**

Dr Chiara Pinto

7:20 PM
