

The Evaluation of the Leading Hadronic Contribution to the Muon $g-2$: Toward the MUonE Experiment

Thursday, 17 November 2022

Spacelike Hadronic VP parameterization - 02.430 (09:00 - 11:00)

time	[id] title	presenter
09:00	[14] Hadronic Vacuum Polarization in the Spacelike Region and the MUonE Experiment	COLANGELO, Gilberto
09:40	[15] The role of Padé approximants as fitting functions in the context of the MuonE experiment	LONDON, Cristiane Yumi
10:20	[16] Reconstruction Approximants to Hadronic Vacuum Polarization and the MUonE proposal	GREYNAT, David
