

# Pushing the Limits of Theoretical Physics

## Wednesday, 10 May 2023

**QCD II: Feynman integrals: Turning mathematics into precision predictions** - Hermann-Staudinger-Hörsaal (11:00 - 11:30)

-Conveners: Stefan Weinzierl

**QCD II: The quest for understanding long-distance singularities of scattering amplitudes** - Hermann-Staudinger-Hörsaal (11:30 - 12:00)

-Conveners: Einan Gardi

**QCD II: Scattering amplitudes in the high-energy limit** - Hermann-Staudinger-Hörsaal (12:00 - 12:30)

-Conveners: Leonardo Vernazza
