

## Session Program

27-31 Jan 2025

## **61<sup>st</sup> International Winter Meeting on Nuclear Physics**

**27 - 31 January 2025**  
**Bormio, Italy**

### **Bormio Conference** ***Monday Afternoon Session***

Bormio, Italy

# Monday 27 January

17:00

## Monday Afternoon Session

Session | Location: Bormio, Italy

17:00–17:35 Recent results from the MEG II experiments

Speaker  
Marco Grassi

17:35–17:53 Low-mass dark sector searches with deuteron photodisintegration

Speaker  
Cornelis Mommers

17:53–18:11 Future physics opportunities with CLAS12 upgrades

Speaker  
Mariangela Bondi

18:11–18:29 Study of p process nucleosynthesis in the mass region of A=75-110

Speaker  
Satabdi Mondal

18:29–18:47  
Effectiveness of nuclear level density and  $\gamma$ -ray strength function in neutron capture  $^{68}\text{Zn}(n,\gamma)^{69}\text{Zn}$  reaction cross-section

Speaker  
Enakshi Senapati

18:47
