

Session Program

19–23 Jan 2026

**62nd International Winter Meeting
on Nuclear Physics**

19 - 23 January 2026
Bormio, Italy

Bormio Conference 2026

Tuesday Afternoon

Bormio, Italy

Tuesday 20 January

17:00

Tuesday Afternoon

Session | Location: Bormio, Italy

17:00–17:30 Proton structure, from HERA to the EIC

Speaker
Tyler Kutz

17:30–18:00 ML for physics

Speaker
Lucie Flek

18:00–18:18 The n2EDM experiment at Paul Scherrer Institute

Speaker
Gian Luca Caratsch

18:18–18:36
Precision measurements in the beta decay of ^6He : Presentation and status of the b-stiled project

Speaker
Romain Garreau

18:36–18:54
Isospin-breaking corrections to the hadronic vacuum polarisation contribution to the muon $g-2$

Speaker
Sebastian Lahrtz

19:30
