

Session Program

19–23 Jan 2026

**62nd International Winter Meeting
on Nuclear Physics**

19 - 23 January 2026
Bormio, Italy

Bormio Conference 2026

Wednesday Afternoon

Bormio, Italy

Wednesday 21 January

17:00

Wednesday Afternoon

Session | Location: Bormio, Italy

17:00–17:30 Searching for Axions and High Frequency Gravitational Waves with Table-Top Experiments

Speaker

Prof. Matthias Schott

17:30–18:00 The DUNE experiment

Speaker

Esteban Javier Cristaldo Morales

18:00–18:18 Hidden Engines: The Rise of non-jetted AGN as Cosmic Neutrino Sources

Speaker

Chiara Bellenghi

18:18–18:36 First observation of (anti)deuteron formation from resonance-decay nucleons

Speaker

Maximilian Mahlein

18:36–18:54

Direct Measurement of the $^{59}\text{Cu}(p, \alpha)^{56}\text{Ni}$ Reaction with the Multi Sampling Ionization Chamber Detector (MUSIC)

Speaker

Prof. Eilens Lopez Saavedra

19:30
