

Session Program

19–23 Jan 2026

Bormio Conference 2026

Thursday Afternoon

Bormio, Italy

Thursday 22 January

17:00

Thursday Afternoon

Session | Location: Bormio, Italy

17:00–17:35 Highlights from BESIII Experiment**Speaker**

Xiaoyan Shen

17:35–17:53 Measurement of double electron-capture Q-value with the JYFLTRAP mass spectrometer**Speaker**

Brian Kootte

17:53–18:11 A Bayesian approach to the Coulomb breakup of ^{19}C **Speaker**

Quentin Bozet

18:11–18:29 A Search For Hexaquarks At Belle II**Speaker**

Felix Keil

18:29–18:47 Investigation of Quasielastic Scattering in $^{24}\text{Mg} + ^{92,94,95}\text{Mo}$ **Speaker**

Ms Kavita Rani

18:47–19:05 Radon reduction in xenon-based rare-event search experiments**Speaker**

Philipp Schulte

19:30
