Session Program

Sep 18 – 29, 2017

Progress in Diagrammatic Monte Carlo Methods for Quantum Field Theories in Particle-, Nuclear-, and Condensed Matter Physics

Regular talk: Valence bond solids, domain walls, spin (de-) confinement and 't Hooft anomaly matching (T. Sulejmanpasic)

Mainz Institute for Theoretical Physics, Johannes Gutenberg University, 02.430
Staudingerweg 9 / 2nd floor, 55128 Mainz

Fri, September 22

9:15 AM

10:00 AM

Regular talk: Valence bond solids, domain walls, spin (de-) confinement and 't Hooft anomaly matching (T. Sulejmanpasic)

Session |

Location: Mainz Institute for Theoretical Physics, Johannes Gutenberg University, 02.430, Staudingerweg 9 / 2nd floor, 55128 Mainz
