

Session Program

23–27 Jan 2017

55. International Winter Meeting on Nuclear Physics

Tuesday Afternoon

Bormio, Italy

Tuesday 24 January

17:00

Tuesday Afternoon

Session | Location: Bormio, Italy

17:00–17:20 **The FOOT (FragmentatiOn Of Target) Experiment**

Speaker

Dr Giuseppe Battistoni

17:20–17:40

First measurement of the charge form factor of the proton at very low Q^2 with Initial State Radiation

Speaker

Dr Harald Merkel

17:40–18:00 **Open heavy-flavour measurements in Pb-Pb collisions with ALICE at the LHC**

Speaker

Andre Mischke

18:00–18:20 **Looking for new Physics with Pion Decays**

Speaker

Dr Luca Doria

18:20–18:40 **Lifetime of the eta-prime meson at low temperature**

Speaker

Mrs Elisabetta Perotti

18:40–19:00

Nuclear medium modifications of properties of kaons measured around threshold with FOPI

Speaker

Dr Krzysztof Piasecki

19:00–19:20 **Advances on micro-RWELL gaseous detector**

Speaker

Dr Gianfranco Morello

19:40
