

# 55. International Winter Meeting on Nuclear Physics

## Wednesday, 25 January 2017

### Wednesday Afternoon (17:00 - 19:00)

time	[id] title	presenter
17:00	[18] Ab-initio calculation of neutrino-carbon scattering in the quasi-elastic region	Dr GANDOLFI, Stefano
17:20	[14] First observation of $\Sigma^0$ production in proton induced reactions on a nuclear target*	Mr KUNZ, Tobias
17:40	[34] Baryon Form Factors at BESIII	Dr MORALES, Cristina
18:00	[11] Recent results on soft QCD topics from ATLAS	Dr MINAENKO, Andrey
18:20	[30] Open heavy-flavour measurements in pp and p-Pb collisions with ALICE at the LHC	Mr NORMAN, Jaime
18:40	[36] From the deuteron to Pc(4450)	Dr BURNS, Timothy
