

55. International Winter Meeting on Nuclear Physics

Thursday, 26 January 2017

Thursday Afternoon (17:00 - 19:05)

time	[id] title	presenter
17:00	[71] Nuclear Reactions for Neutrinoless Double Beta Decay	Dr CAVALLARO, Manuela
17:25	[16] Calculations of kaonic nuclei based on chiral meson-baryon coupled channel interaction models	Mrs HRTANKOVA, Jaroslava
17:45	[12] Recent results from the ATLAS heavy ion program	Dr SLOVAK, Radim
18:05	[17] Constraining the symmetry energy at high density with the first SπRIT experiments	Dr CERIZZA, Giordano
18:25	[7] Two-neutron removal from ^{11}Li in a (p,t) reaction at low incident energy	Prof. COWLEY, Anthony
18:45	[74] Selected CMS Results in Higgs Physics	Dr DORDEVIC, Milos
